

WHEN A COMPANY CAN'T PAY

7 moves that turn the company's debt into your debt.

MISTAKE 1 OF 7

1

Keep trading and running up new debts after you know it can't recover.

MISTAKE 2 OF 7

2

**Repay your own director's loan
before the other creditors.**

MISTAKE 3 OF 7

3

Clear one creditor you care about, or a family member, ahead of the rest.

MISTAKE 4 OF 7

4

Sell the assets or the client book cheaply to a company you also own.

MISTAKE 5 OF 7

5

**Spend the VAT and PAYE money
to keep trading.**

MISTAKE 6 OF 7

6

Stop opening the HMRC post and hope it goes quiet.

MISTAKE 7 OF 7

7

Strike the company off to make the debt disappear.

**None of these starts
as a plan.
Each is where panic leads.
Advice early avoids all seven.**

If the company can't pay, get the options before you act.
